

1.

Show the total population of the world.

```
SELECT SUM(population)
FROM world;
```

2.

List all the continents - just once each.

```
SELECT DISTINCT continent FROM world;
```

3.

Give the total GDP of Africa.

```
SELECT SUM(gdp) FROM world
WHERE continent='Africa';
```

4.

How many countries have an area of at least 1000000.

```
SELECT COUNT(name) FROM world
WHERE area >= 1000000;
```

5.

What is the total population of ('Estonia','Latvia','Lithuania').

```
SELECT SUM(population) FROM world
WHERE name IN ('Estonia','Latvia','Lithuania');
```

6.

For each continent show the continent and number of countries.

```
SELECT continent, COUNT(name) AS number_of_countries
FROM world
GROUP BY continent;
```

7.

For each continent show the continent and number of countries with populations of at least 10 million.

```
SELECT continent, COUNT(name) AS number_of_countries
FROM world
WHERE population >= 10000000
GROUP BY continent;
```

8.

List the continents that have a total population of at least 100 million.

```
SELECT continent
FROM world
GROUP BY continent
HAVING SUM(population) >= 100000000;
```
